

The World's Most Accurate & Fastest Credibility Test

EyeDetect: A New Way to "Look" at Lie Detection

EyeDetect is the first **nonintrusive** lie detection technology that accurately detects deception in 30 minutes by analyzing eye and other behaviors.

Highly Accurate

Scientifically validated at 86%.

Fast

Test takes only 30 minutes; results in less than 5 minutes.

Noninvasive

No cables or sensors attached to examinees.

How this Revolutionary Lie Detection Test Works

- 1 Examinee takes 30-minute true/false test on a computer.
- 2 Data captured, encrypted and uploaded to a secure server in the cloud.
- 3 Proprietary algorithms interpret the data and provide a report with the Converus Credibility Score in less than 5 minutes.

EyeDetect is Ideal for Testing

- Job Candidates | Employees*
- Public Safety Personnel
- Parolees | Probationers
- Criminal and Civil Case Participants

Why Credibility Experts Love EyeDetect

- Quickly screen large groups
- Validate results with a secondary test

* The Employee Polygraph Protection Act (EPPA) prohibits using lie detectors like EyeDetect in private companies. However, federal, state and municipal government employees or contractors may be tested.

Converus ("with truth") provides scientifically validated credibility assessment technologies. EyeDetect™ detects falsified identities at 91% accuracy in about 1-3 minutes by analyzing subtle variations in the motor nervous system responses. IntegrityDetect™ identifies the most trustworthy individuals at 80% accuracy in 6 minutes by analyzing a person's implicit associations. These technologies help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: www.converus.com
